

HALO DAMS

The world's most advanced digital asset management system

**BUILT ONE CASE
IN ONE PLACE**

Centralized and cloud-based, HALO DAMS streams, retrieves, cross-references and stores multiple media types. Audio, video, documents and images are all in there. All searchable. All auditable. All compliant. All in one place.

EASILY SECURED. EFFORTLESSLY SHARED.

CLOUD BASED

View on any device or browser

SECURE CENTRAL STORAGE

Safely review, stream and share evidence.

BUILT IN REDACTION ENGINE

Video clips and other media can be redacted.

ONE CASE IN ONE PLACE

Combine every digital media format.

MARK FOOTAGE

Easily mark and identify evidential video and media files.

SECURE SHARING

Share videos securely, including metadata, with external users.

MONITORED ACCESS

Audited with usernames, times and actions.

AUTO-DELETE

Non-evidential files can auto-delete after a configurable period of time.

FREE DOWNLOAD

Play and download videos from the sharing portal at no extra cost.

WHEN BUDGET GOES FURTHER, PROTECTION GOES WIDER.

The HALO Subscription is a scalable, cost-effective way to deploy an optimum level of video evidence gathering technology. Regardless of size, sector or speciality, we will customise a subscription package to ensure you deliver maximum safety, security and productivity.
